SWIFTEC IT, INC AND SK TECHNOLOGIES, INC MERGE!

To Our Valued Customers:

We want to share with you some exciting news! Effective March 16, 2009, Swiftec IT, Inc and SK Technologies, Inc have merged. This is Swiftec's fourth merger in three years!

All IT support, remote monitoring and backup services will continue to be performed under the Swiftec IT, Inc name.

What will change?

The only change will be the absence of the SK Technologies, Inc name. Clients will continue receiving the same high level support as before. SK Technologies, Inc President, Steven Ka, will take on the Accounts Executive and Marketing Director role within Swiftec's structure.

Why the change?

Together, we can now offer additional services to our clients than before (Help Desk support, Security Audits, Web design/hosting, improved backup and improved remote monitoring). Swiftec also has a larger staff (and full time office manager) to attend to clients needs. "SK Technologies, Inc will be able to provide their clients with a broader range of services which will further enhance our clients' process and systems." says SK Technologies President, Steven Ka.

Who is Swiftec IT, Inc?

Swiftec IT, Inc. was founded by IT industry leader Adam Winter. Adam has an MBA degree from Clark University and is a Microsoft Certified Systems Engineer (MCSE). Adam brings the global experience of major corporations he served to smaller companies where it can have significant and immediate impact. He is noted for insights and solutions to technological issues that beset many companies: strategic planning, automated backup and recovery, disaster recovery, creating help desks and other vital IT functions.

Who is SK Technologies, Inc?

SK Technologies, Inc has been delivering computer/ network service, support & maintenance, graphic/ website design and Marketing solutions to Massachusetts businesses since 2004. SK Technologies' clients include many lawyers & legal professionals, an auto dealership and retail stores.

What services are available?

Swiftec is very capable to continue the IT support of SK Technologies' clients. In addition they have their own dedicated servers located in a data center.

Other services now available to SK Technologies clients are:

- On-site Support (Full time IT support - only when needed)
- Remote Help Desk Support (For the quickest of responses)
- Pro-active Remote Monitoring (Active Monitoring that will fix an issue before it becomes one)
- Secure Automated Remote Backup (Monitored, encrypted, off-site, and runs automatically)
- Spam filtering (Spam wastes 60 hrs per employee per year. We can eliminate 99.99% of spam)
- Web hosting/ SEO/ Design (With dedicated servers we service our clients faster and better)

Questions / Comments
